

STORY LOGIC NET

COLLABORATIVE WRITING FOR
CHILDREN'S MULTILITERACY SKILLS
UTILISING MULTIMODAL TOOLS

SLN COMMUNITY Challenges

Co-funded by the
Erasmus+ Programme
of the European Union

1. Set an account for a school – real or fictional

- Go to www.storylogicnet.eu and access the SLN Community
- Sign up for a new account (ADMIN) - use an email you can access (note: you will need 2 email accounts to complete the challenges proposed to you)
- Edit your account details, by uploading an image and writing something about you on the description
- After your new account has been confirmed, sign-in and invite a MANAGER – use an email you can access and different from the one you used to create the ADMIN account
- Still logged in into your ADMIN account, create class 'A' with 8 students. You will receive an email with the log in information for the students

2. Set a MANAGER account and set up a story

- Go to the email account you used to invite the MANAGER and follow the instructions to confirm your registry into the SLN Community
- Go to www.storylogicnet.eu and access the SLN Community with your MANAGER details
- Edit your account details, by uploading or choosing an image and writing something about you on the description
- Go to the classes tab and add class 'A' as one of your classes
- Now go to the top menu to 'create a new story' – follow the process as indicated and if you have doubts watch again the videos or consult the support Manual. To ease the next challenge, choose the same student for all tasks – writing, illustrating and reviewing

3. Compose a story

- Go to www.storylogicnet.eu and access the SLN Community with the STUDENT details of the student you chose to be composing the story you created as MANAGER
- After signing-in, go to the message board or directly to stories
- Write a few lines and submit for validation (to progress you have to log-out and now sign-in as MANAGER, go to the story and validate)
- After the writing of ACT 1 has been validated by the MANGER, sign in again as the STUDENT assigned to the story
- Go to the story and now draw house, some mountains and a small girl
- After you are done, request validation

At this point you should have a basic understanding of how the SLN Community works for every type of user. If you wish you may continue composing the story or you can end the exercise.
